DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1-2, it is unclear if the claimed subject matter is a ceramic member or a reactor. The recitation that the ceramic member "being usable in a state where at least a part thereof is exposed in a reactor" appears to be an indication of the intended use of the ceramic member and does not place any positive limitations on the claimed ceramic member since the structure of the ceramic member does not include the reactor. However, the claims also recite the location of the ceramic member which appears to be directly related (limited) to the reactor, e.g. the claims recite "the base member facing an inside of the reactor". The scopes of the claims are not clear which render the claims indefinite.

Allowable Subject Matter

2. Claims 1-2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 1775

Claims 3-17 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
